## Recommendations

Alexandre Plennevaux

*Web Designer / Web Developer / Design & Usability*

*Teacher*

Nicolas is a smart and resourceful young man who is good at conceiving simple and elegant solutions to complex web development problems. As his teacher, I found him to be really talented and at ease with the latest concepts in web development - especially on the backend size. How quickly he went from rookie to Expert in mastering Laravel (one of the most popular PHP frameworks around) still amazes me, and it tells a lot about his potential.

Although he is mainly a developer and a UX designer, he knows enough about visual design to make clean and functional prototypes, a good base over which to iterate for graphic designers.

As a human being, he's a team player, easy smiling and nice to have around. He has opinions and can bring arguments over the table, but always with friendly manners.

## Technical knowledge

very good / good / intermediate / notions

### Front-end

#### *Languages*

Html5 & Css3 (good)

SASS / LESS (good)

Javascript & jQuery (good)

#### *Frameworks*

Twitter Bootstrap (good)

VueJS (very good)

React (very good)

### Other

#### *Source Control*

GIT (GitHub/GitLab) (good)

Subversion (good)

#### *Testing*

PHPUnit (very good)

jUnit (good)

Mockito (good)

### Back-end

#### *Languages*

PHP (very good)

Java (intermediate)

#### *Frameworks*

Laravel (very good)

VertX (intermediate)

Spring (intermediate)

### Other

#### *System Admin*

Installation & maintenance (good)

#### *Search*

Elasticsearch (good)

#### *Environments*

Vagrant (good)

Docker (good)

Kubernetes (good)

---

## Projects

[laravel-modules](#) (*laravel package enabling modular development, 430 000 downloads 08.10.2018*)

[AsgardCMS](#) (*laravel5, multilingual and modular CMS*)
